

## Privacy Policy

When you use our APP service, you us to keep your information secure. This privacy policy is designed to help you understand what data we collect, why we collect it, and what we can do with that data. It is important to understand these, so we hope you will take the time to read this policy carefully. Please note that you can find settings in our APP that allow you to manage your own information and to protect your privacy and security. Please read the entire document to fully understand how we use your information and how you can protect your privacy.

Our privacy policy explains the following issues:

1. What information we collect and why we collect it.
2. How we use this information.
3. What permissions our APP requires on your device to be able to function.

We care about to the privacy of all our users, please take your time to understand our privacy policy, and if you have any questions we would be happy to respond to your concerns. For privacy issues, please contact [eiaskyth@gmail.com](mailto:eiaskyth@gmail.com)

### What information we collect

To better serve our users, a name and email address may be collected for identification of a user account.

### How we collect information:

You provide us with the information we collect. For example, some of our services require registration of an account, when you register your account, we will ask you to provide personal information, such as name and email address, which will be stored under your account name as a unique account name.

### What permissions are needed on your device:

#### 1. Bluetooth connection information

Some of our products need to be connected to Bluetooth, so that the application can send and receive data from nearby devices.

## 2. Wi-Fi connection information

Some of our products need to be connected to WIFI for use, so that the application can access the device's Wi-Fi connection including whether or not Wi-Fi is turned off.

## 3. Camera

The app has the ability to take pictures and video. Some of our products have DIY features, like a user-friendly camera for creating personalized icons.

## 4. Photos/Media/Files

The application has the ability to use the file on the device with the application installed. This allows the application to store pictures taken, or use your existing photos, for icons or other uses. This includes reading and writing to the SD card and USB storage. The app can also mount and unmount external storage as well as format external storage. This permission deals with reading external storage on newer devices.

## 5. Microphone

The app can use the device's microphone, this may include recording audio. Some of our products need to interact with each other, so the application will need to be able to connect to the microphone.

## 5. Local Storage

Our APP may store your data cache on your smart device.

How we share your information:

We will not share your personal information with any company, organization or individual unless required by law.

For legal reasons

If we are satisfied that it is necessary to access, use, retain or disclose the relevant information to achieve the following purposes, we may share personal information with the user:

1. To comply with any applicable laws, regulations, legal procedures, or mandatory government requirements.
2. To implement the applicable terms of service (including investigating possible violations).
3. To find, prevent, or deal with fraud, security, or technical issues.
4. To protect the rights, property or security of our users or the general public from damage to the extent required or permitted by law.

5. We may disclose publicly and share information that does not contain personally identifiable content with partners, such as publishers, advertisers, or affiliated sites. For example, we may publish usage trend information so that the public is aware of the overall usage trends related to Google services.

6. In the event of transactions such as consolidation, acquisitions, or asset sales, we will continue to ensure confidentiality and notify affected users before any personally identifiable information is transferred or subject to other privacy policies.

## Information Security

We strive to provide protection for all of our users so that the information we keep is not accessed, tampered with, disclosed, or destroyed without authorization. To this end, we have taken the following measures:

1. We will review information collection, storage and processing practices (including physical security measures) to avoid unauthorized access to the system.

2. We only allow employees, contractors and agents who help us to gain access to personal information, they are bound by strict contractual obligations, and if they fail to meet these obligations, will be held accountable or terminated.

We may send you e-mail or other information

When you use our services, you grant us the right to use your information to send e-mail, news, or push notifications to your device. If you do not wish to receive this information, you can follow our prompts and choose to unsubscribe on your device.

The scope of privacy policy

This Privacy Policy applies to all of our APP software.

Changes to the Policy

Our privacy policy is subject to change at any time. Without your express consent, we will not reduce your rights under this Privacy Policy. We will post any changes to our privacy policy on this page. For significant changes, we will also provide additional notices (including, certain services, we will send a notice via e-mail to explain the specific changes to the privacy policy). We will also archive previous versions of the Privacy Policy for your reference.
