

Clip-on Application Chart

Fitment: The chart below lists the sizes of the upper portion of the fork tubes for each model. There are some models that require modifications in order for the clip-ons to be fitted properly and to have the required amount of clearance with the fairings, gauges and other parts of the motorcycle. We have noted some models with known interference issues. If you have any questions about your model, please give us a call and we would be happy to assist you.

Aprilia		Kawasaki continued...		RC390	51
